AOA credits

Tower Health CME offers
2 Osteopathic Symposiums
per year:

- Spring (April) and Fall (October)
- Jointly provided by Philadelphia College of Osteopathic Medicine
- Each sessions offers 5 AOA credits on a Saturday morning
- Offered to all DO's in the Tower network
- Attend 4 conferences over the 2 years and get 20 AOA category 1A credits needed for license renewal
- The topics offered represent all specialties due to a broad audience
- For more information, please access Tower Health's eeds portal at <https://towerhealth.eeds.com> to register closer to the conference dates

Act 124 Opioid education requirements for license renewal (2 hours)

Enduring Materials are available on CME on Demand to meet the Act 124 Opioid education requirements for licensure:

1. Go to <https://towerhealth.eeds.com>
2. From the top right main menu select "Enduring Materials"
3. Scroll down and select "Act 124 Required Opioids Education" series tab
4. Additionally, in the Filter Materials box on the right, you can type "Opioid" in the keyword field to show all opioid training materials throughout all recorded series
5. Choose a presentation by clicking the title
6. Click Continue to Enduring Material
7. Enter your basic information into eeds
8. Watch the video recording, take the short post-test and activity evaluation to claim your credit

Patient Safety Risk Management Licence renewal

Requires 12 credits per license cycle.

The following is a list of topics that will satisfy the patient safety/risk management requirement:

- Improving medical records and record keeping
- Reducing medical errors
- Professional conduct and ethics
- Improving communication among physicians and with other health care personnel
- Communication between physicians and patients
- Preventive medicine education
- Health care quality improvement

As long as the CME activity falls within these topics, you can count it toward the patient safety/risk management requirement. The course does not have to state, and very likely may not, that it is a patient safety or risk management course. According to the regulations, the patient safety or risk management credit hours can be in either Category 1 or Category 2. These credits are self designated and reported by the physician. We do classify certain activities that meet the requirements in eeds and those would be reflected on your CME transcript or eeds certificate.

ACT 31 Requirements for Suspected Child Abuse and Neglect

Live courses are offered throughout the year. If you are unable to attend live sessions there are two approved free online courses available:

1. University of Pittsburgh: www.reportabusepa.pitt.edu
2. Pennsylvania Medical Society: <https://www.pamedsoc.org/detail/article/Child-Abuse-Reporting-CME> (if you are a member).
