James D. Burleigh,
DO

Meghan E. Maclean,
MD

Office Hours

Monday to Friday, 8 a.m. to 4:30 p.m.

PRACTICE FOCUS

The role of Palliative Medicine is to provide relief from symptoms, pain and the stress of a serious illness. Palliative Medicine offers support to patients and their loved ones. The practice sees patients much earlier than hospice as the goal is to allow patients to tolerate their treatment-focused care (i.e. chemo, dialysis, etc.) with comfort. Patients with a cancer diagnosis will be seen at McGlinn Cancer Institute and patients with all other diagnoses will be seen in our office located at Reading Hospital, D-Building, First Floor. An interdisciplinary team consisting of physicians, nurse practitioners, nurses, medical assistants, social workers and chaplains work closely together to provide relief from physical, emotional, social and spiritual suffering. The office sees patients with curable, as well as incurable, diseases.

REFERRALS

Referrals or consults are welcome from any provider. Routine referrals may be placed in EPIC. Non-EPIC providers may refer patients by calling our office at 484-628-5281 or faxing to 484-628-4907. Please send all pertinent records at the time of referral. For all urgent/emergent cases, please call our office at 484-628-8251.
