MD

### PRACTICE FOCUS

The Pennsylvania Hand Center is a primary and tertiary care center for problems of the hand, wrist and upper extremities, dedicated to providing the best quality care in a compassionate way. Our goal is to make patients feel welcome and cared for; particularly, focusing on the goal of improving function and decreasing pain.

Our referrals attest to the expertise of our services. Our reviews are in accordance with our goals to be a close-knit, friendly and caring place to receive expert care. Patients know we can make them better or, at the very least, no one can try harder to help them. We are well known for our innovations in diagnosis and treatment, both surgical and non-surgical.

The reputation of the Pennsylvania Hand Center attracts a complete cross-section of problems, including carpal tunnel, hand and wrist pain, congenital and degenerative disease, micro-vascular and peripheral nerve problems.

We believe in a team approach for treatment in which all members work together to make patients better.

Our motto is "...because we care!" That's because we do!

### REFERRALS

Referrals or consults are welcome from any provider. Your patients will obtain an appointment in an expedited manner and you will swiftly receive a report of the findings and treatment. Patients should call 610-525-1000 for an appointment or with any questions. Providers are always welcome to call with any questions.
