Berks Schuylkill Respiratory Specialists (BSRS) was founded in 1980. Since then, BSRS has evolved into a highly sophisticated medical practice with 14 physicians caring for patients over the age of 14 in the areas of Pulmonary Medicine, Allergy & Immunology, Sleep and Research. An additional 78 employees support the physicians, a six-bed sleep lab, and three pulmonary function testing (PFT) labs.

Services provided in the PFT labs include:

- Bronchodilator Testing
- Lung Volumes and DLCO
- Methacholine Challenge Studies
- Pulmonary Exercise Stress Studies

Our physicians are participating providers with Medicare and Medicaid, a wide array of insurance carriers, and most other regional HMO's and PPO's.

BSRS serves patients in Berks, Schuylkill, Carbon and Eastern Lebanon Counties. BSRS covers the Pulmonary Department and the Intensive Care Unit at Reading Hospital, providing care 24 hours per day, 365 days per year.

Our Physicians

Each of our physicians is board-certified in Internal Medicine with sub-specialty board-certification in Pulmonary and Critical Care Medicine. One of our physicians is also board-certified in Allergy & Immunology. Five of our physicians are board-certified in Sleep Medicine, while others have completed extensive training in the field.
