### OFFICE HOURS

Monday to Friday, 7 a.m. to 4 p.m.

Raymond Smith, MD

Colette Simon, MD

Monique Abner, MD

### WOUND SERVICES

Wound Healing & Hyperbaric Medicine is an outpatient, hospital-based center that works in conjunction with the patient's primary care physician, serving as an adjunctive service for the referring physician and specializing in the treatment of problem wounds. We provide optimal wound care through the coordinated use of a variety of specialized services and the latest evidence-based protocols, utilizing advanced therapies and technologies. Some indications for wound therapy are:

- Delayed radiation injuries
- Ischemic ulcers
- Diabetic foot ulcers
- Ostomy nurse support
- Ulcers with Chronic Refractory Osteomyelitis
- Venous insufficiency
- Treatment of head and neck irradiation prior to tooth extraction
- Other chronic, non-healing wounds

### HYPERBARIC MEDICINE

Hyperbaric Oxygen Therapy (HBO) is a treatment in which the patient breathes 100% oxygen inside a pressurized chamber. HBO quickly delivers high concentrations of oxygen to the bloodstream and assists in the healing process of wounds. It is also effective in fighting certain types of infections, stimulates the growth of new blood vessels and improves circulation. The Center is fully accredited by the Undersea & Hyperbaric Medicine Society (UHMS). The accreditation indicates the highest industry standards and the best practices in hyperbaric medicine.

### REFERRALS

Routine referrals may be placed in EPIC by choosing "SRI WOUND CARE CENTER" as the Department. Non-EPIC providers may refer patients by calling our office at 484-628-3939 or faxing our office at 484-628-3940. Please send all pertinent records at the time of the referral, including recent progress notes, pathology and lab reports.
