

Tower Health Partners®

Physician Fact Sheet

Tower Health Partners (THP) is an extensive, high-value network of physicians from all specialties spread across a wide geography. The organization ensures participating physicians align with practices of evidence-based medicine in a culture of physician accountability. These principles continue to drive healthcare transformation through improved quality, cost efficacy and increased patient and provider satisfaction. THP creates opportunities for the alignment of new incentive and alternate payment models for physicians. By bringing together the best physicians with the strongest healthcare systems, THP is helping physicians and practices benefit from these new arrangements.

Physician Membership Benefits

- Non-exclusivity for THP participation and no fees to join or maintain membership
- Strategic alignment with a large, high-value network
- Leadership and committee opportunities to drive program components
- Economic benefit through financial incentives with new payment methodologies
- Enhanced communication and interaction with colleagues for driving in-network referral patterns
- A focus centering on physician wellness and satisfaction
- Improved patient health through coordinated continuum of care planning
- Ability to participate in new health plan products
- IT and EMR support

Practice Benefits

Tower Health Partners works diligently to support its physician practices with dedicated provider relations staff that deliver excellent customer service.

- Care cost savings that are shared with providers
- Economic benefits of accessibility to new payor contracts and patients
- Recognition and reward for high-quality care instead of volume
- Increase in-network referrals, as well as patient retention and acquisition
- Office efficiencies that facilitate care and contribute to better work/life balance for providers and office staff
- Ability to measure and monitor quality and performance
- Care management and ancillary service support
- Increase practice efficiencies to reduce provider overhead

Service Offerings

Physicians and practices have the opportunity to partake in additional benefit offerings through negotiated arrangements with THP.

- Provider/office staff Health Plan products for employees
- Ambulatory Epic Community Connect offering and EMR support
- Care management services tailored for your practice and patient needs
- Electronic clinical data interoperability solution
- Marketing opportunities for physician and practice services
- Physician networking, recruitment, and referral support
- Provider practice fiscal and operational support
